

## Auditors' Report 2017

We had access to all necessary information regarding incomes and expenses of UMAC and can certify that the financial report presented is all in order.

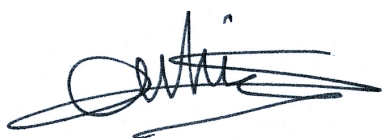

For the last year the main expenses were put on the upload of the database and the development of the new website.

There is still good money on the bank account but it is unfortunately quite difficult to spend it because of the restricted frame of expenses allowed by ICOM.

We would like to congratulate the Board for being the winner of a special funds to start a survey on UM community.

We recommend that the General Assembly approves this report.
